WHAT HAPPENED TO OUR HEALTH?

Dr. Alexis Carrel, 1912 Nobel Prize winner in Medicine said: "The cell is immortal. It is merely the fluid in which it floats which degenerates. Renew the fluid at intervals, give the cells what they require for nutrition and, as far as we know, the pulsation of life may go on forever."

There is no mystery to the cause of disease. All Masters of health teach that aging and disease is caused by a deficiency state in the body created when we are stressed, not supplied the essential energized nutrients for life, the immune system is taxed, the ability to remove waste slows, toxins build up and... the body begins stealing the essential nutrients from itself to survive. Even the AMA and Surgeon General both agree, 8 out of the 10 leading causes of death in the USA are diet related.

Some of the nations largest selling products include antacids, laxatives, cigarettes, deep fried fast foods, junk foods, coffee and alcohol. According to the 1992 Earth Summit report, North American soil has less than 10% of the nutrients it had 100 years ago. We are literally starving of malnutrition and poisoning ourselves from the inside out!

- If you want to:

 - gain weight

 - decrease toxic load and disease symptoms

For 20 years I have been unable to eat most raw fruits, vegetables and nuts and would have an immediate anaphylactic reaction. Charles recommended 10 Catalyze digestive enzymes per day. Reluctantly I started slow and experimented with about 4 or 5 caps for a couple days and then ate a bite of a piece of fruit... to my surprise – no allergic reaction occurred! I increased to 10 a day for 2 more days and ate a salad with sprouts, beet tops, peas and other fresh greens that I wouldn't have dared even sampled before. Within a few days of taking Catalyze enzymes I am able to do what many doctors wouldn't have even considered possible. - Tracy Piercy

I am amazed at the difference in my digestion and energy by just having a Conscious Planet shake a day and adding enzymes to my other meals. I am so excited at the possibilities here: to regain my health and feel better and the opportunity for passive income. - Thilo

I used to feel faint, weak and had hypoglycemic symptoms and be afraid to go anywhere that might not have food for me. I met Charles and did the Conscious Planet Vision Quest diet for 3 months and I no longer have these symptoms. I do not panic going without food. I now have level energy and feel good. I eat much less than I ever did, I lost over 20 pounds. I do not feel deprived and I feel that I enjoy food more now than I did before. We eat mostly raw food including at least one hemp shake a day. Thank you for helping me live a more balanced life. - Deborah Johnson

I completed my 3rd North American bicycle trip to raise awareness for a KINDER world! The trip we did in the year 2000 was really tough on my body and I was hurting big-time.... this trip was MUCH tougher as I went alone through our harshest winter in a long time and pulled a 70 lb trailer and yet I'm stronger and recovering so much quicker! I COULD NOT have done this 8 month 11,000 Km trip without Conscious Planet Products. - Brock Tully, Speaker.

WHY CONSCIOUS PLANET PRODUCTS & THE QUEST OPTIMAL HEALTH PROGRAM?

Like Dr. Carrel, we create the optimal environment for self healing and well being by using our exclusive **4 Pillars** to determine the finest products for our health:

1. We start with nutritional analysis and chose the most nutrient concentrated and balanced common foods available.
2. Then we chose foods that had the most vitality to compensate for our depleted state.
3. Using electro dermal screening to test the bodies reaction to determine those foods which put the body into Homeostasis or perfect balance.
4. Using advanced kinesiology to narrow down the foods with the highest frequency that enlighten us instead of create addictions and pain.

This has created what we believe are the most nutritious and simple yet profoundly effective food products. The products are broken down into 3 Foundational Principles which categorize them in order to better explain the requirements of the human body and the healing process:
